**“Tree Plantation”**

**Day & Date:** 20/10/2023

**Name of Event:** “Tree Plantation”

**Name of the Faculty Coordinator:** - Ms. Sankpale P.P.

**Name of the Student Coordinator:** Mr.Sawant Ashwin

**Total Student Participated:** - 29

**Venue:** Ayurvedic garden of college, AGCE satara.

**Overview:**

Green Club seeks to promote environmental awareness among the students regarding the necessity of protection and conservation of the environment. Green Club was founded with the goal of contributing to a cleaner and greener environment. The Green club organizes a variety of events and activities to raise environmental awareness and works at instilling a responsible and proactive attitude among students towards environmental protection. The students were very much interested to join Green Club and this club consisted 30 students. The main objective of the Green Club is to engage the students in environmental awareness and create a clean and green consciousness among the students through various activities.

Green Club is a platform to obtain knowledge about environment. The Activity were started on 20th October, 2023 from 1:00 pm to 3:00 pm.

**Objective:**

The “Tree Plantation “activity was organized by the Green Club with the goal of promoting eco-friendly practices and encouraging students to take an active role in environmental conservation.

1. The purpose of plantations is to save the environment which is endangered and to keep alive the beauty of our life.
2. Trees are god gifts of nature. They are also known as the best buddies of humans.
3. As the world is facing the issue of global warming and other environmental-related problems to recover from such issues planting trees became one of the most important aspects of life today.
4. It helps to maintain an eco-friendly environment around the whole world and reduces air pollution and improves the greenery.

### **Activity Overview**

A group of students from various branches participated. They gathered at Ayurvedic garden of college. The Green Club faculty members and volunteers supervised and guided students throughout the activity.

### **Steps Taken During the Activity:**

1. Preparation: Students were provided with gloves, shovel, mulch and watering can .

#### **2. Determine the Planting Location :**

Once you've chosen the tree species, assess your landscape to find the best planting location. Consider the tree's eventual size and its proximity to buildings, power lines, and other plants. Ensure that the location provides adequate sunlight, proper drainage, and enough space for the tree's roots to grow without obstruction. It's also important to check for any underground utilities before digging.

#### **3. Prepare the Planting Hole :**

The third step in the plantation process after identifying the planting location is to prepare the hole. The size and depth of the hole should be appropriate for the tree's root ball. As a general rule, the hole should be two to three times wider than the root ball and just deep enough so that the top of the root ball is level with or slightly above the soil surface.

Remove any grass, weeds, or debris from the hole.

#### **4. Handle the Tree with Care :**

When handling the tree, it's essential to be gentle to avoid damaging the roots and branches. If the tree is in a container, carefully remove it by holding the base of the trunk or the root ball. For bare-root trees, gently untangle and spread out the roots before planting. Avoid lifting the tree by its trunk or pulling on the branches, as this can cause damage.

#### **5. Stake and Support**

In certain cases, newly planted trees may require staking for additional support. If your tree is top-heavy or exposed to strong winds, carefully insert stakes into the ground outside the planting hole and use flexible ties to secure the tree to

the stakes. However, avoid staking unnecessarily, as it may restrict the tree's natural movement and hinder root development.

#### 6. Water and Mulch

Proper watering is crucial for the tree's establishment. Immediately after planting, thoroughly water the tree to settle the soil and provide moisture to the roots. Apply a layer of organic mulch, such as wood chips or bark, around the base of the tree, leaving a gap around the trunk to prevent moisture buildup and the risk of rot. Mulch helps retain moisture, regulate soil temperature, and suppress weeds.

**Outcomes and Benefits:** Students learned about the tree plantation activity is known as afforestation or reforestation.

**Tree Plantation:** This activity showcased the importance of reforestation and provided practical knowledge on plantation.

#### **Feedback and Future Recommendations**

The activity received positive feedback from both students and faculty. Participants suggested that more such activities be organized. Moving forward, the Green Club aims to expand this initiative, collaborate with local authorities, and promote Tree Plantation within the community.

#### **Conclusion**

The Tree Plantation Activity successfully instilled a sense of responsibility among students for environmental conservation. This initiative, led by the Green Club tree plantation initiatives play a crucial role in environmental conservation, climate change mitigation, and sustainable development by promoting ecological restoration, enhancing biodiversity, and addressing socio-economic challenges.

Mr. Shrikant Shejaval

**Blood Donor Count: -**

Female:-106  
Male:-16  
**Total:-122**

**Objectives:**

The purpose to organize a **blood donation camp** is to motivate people to **donate blood** and social works and select a suitable **donor** whose **blood** will be safe to the recipient and who himself shall not in any way be harmed by **blood donation**.

**The benefits of giving blood**

- Giving blood can reveal potential health problems.
- Giving blood can reduce harmful **iron** stores.
- Giving blood may lower your risk of suffering a heart attack.
- Giving blood may reduce your risk of developing **cancer**.
- Giving blood can help your liver stay healthy.

**The objectives of the Blood Donation Day campaign are as follows,**

- Raising awareness of the necessity of safe transfusion of blood and its components.
- Imparting knowledge regarding the importance of unpaid, voluntary blood donation.
- Motivating and encouraging people who are not interested in donating blood in spite of being a Healthy person.
- Thanking blood donors throughout the world and addressing the need for frequent unpaid donations.
- Encouraging youth to donate blood and inspiring others to do the same.

**Observation / Suggestions:**

Active participant from every class of every department should be increased and for that class coordinator and HOD give instruction for students for participation in teamwork.
